

MycoNex

Anticaking Agent

Gold

MycoNex, when mixed in poultry and livestock feeds, acts as gut acidifier, natural preservative, pellet conditioner and anticaking agent.

Composition:

A synergistic blend of triple kilned Hydrated Sodium Calcium Aluminosilicate and 5 free organic acids (Propionic acid, Acetic acid, Benzoic acid, formic acid and Sorbic acid).

Mixing Directions:

To be mixed in finished feed for Cows, Buffaloes, Sheep, Goats, Camels, Horses, Chicken, Turkey, Fish and Shrimp at the dose rate of 500 gm to 1 kg per ton of feed as per the moisture level.

Packing:

25 kg bags

Gut Acidifier
